

Because I Love Him

I wanna walk and talk with Jesus each and every day
I want my life to be an example for him in every way
I wanna treat my brothers the way that Jesus wants me to
Because he said do unto others
As you would have them do unto you

I want him to shower me with his blessings from up above
And then rock me and rock me and rock me
In the cradle of his love

I want him to lead me and guide me in everything I
Say and do
In his service I want him to choose me and use me
As he would do

What a wonderful counselor mighty prince of peace is he
All I want each day is just a closer walk with thee

Because I love him I love him I love him
And I know yes I know he loves me

Because I love him I love him I love him I love him
I love him I love him I love him
And I know yes I know he loves me
