

No Ground

Chorus

No ground we're giving up no ground
We got a cause worth fighting for
Devil we're not gonna take no more
No ground we're giving up no ground
We're absolutely positively glory bound
We're not giving up no ground

Verse 1

Can you feel the lateness of the hour
Can you see the battle going on
Don't give up when you stumble
You're sure to lose your way
Just tune your ears so you can hear
When the trumpet sounds
We're not giving up no ground

Verse 2

Sometimes compromising seems the best way
But never when the truth becomes involved
You can't light a candle and hide it from the world
Make up your mind to shine when night is all around
We're not giving up no ground

Verse 3

People all around us have opinions
Offering advice they think is wise
We know there's a difference
In what's right or wrong
Hold tightly to the truth that you've already found
We're not giving up no ground
